Limitation on use of water for sprinkling.

ST. CLAIR, MI, July 7, 2020. – The St. Clair City Council has enacted a limitation on the use of water for lawn sprinkling effective immediately. Even numbered street addresses may conduct outdoor sprinkling on even numbered days. Odd numbered street addresses may conduct outdoor sprinkling on odd numbered days. This limitation shall run through Labor Day 2020. This limitation is necessary to allow for adequate pressure and supply in the water system to be able to meet the domestic and fire flow requirements of all our customers.
